ICIP 2026. We are delighted to welcome you to this educational initiative. In this first edition – online version- we will be joined by leading specialists in the fields of interventional pathology, cytological, histological and molecular diagnostics. Thanks to the generosity of the speakers, we are able to present a programme that addresses the state of the art in Interventional Pathology from different latitudes. We hope to focus on the high diagnostic performance of the methodology applied by the Interventional Pathologist, define concepts, as well as sowing the seeds for the promotion and systematization of this branch of Pathology.
